QUALITY POLICY

Syn-Tech Ltd. is committed to providing our Customers with lubricants that meet the requirements of all interested parties. By using the proper tools and equipment, accurate information and constructive feedback, we are able to plan, control and continuously improve our quality management system. Syn-Tech Ltd. is committed to complying with the requirements of ISO9001:2015.

President

Quality System Manager

SCOPE

Syn-Tech has implemented the requirements of ISO9001:2015 in order to consistently design, develop, manufacture and test lubricants for applications including the automotive industry that consider external and internal issues and requirements of all interested parties. Our quality management system is also structured to enhance customer satisfaction by continuous improvement.
